

specialists in the care of HIV-infected infants, children and adolescents, family members of HIV-infected children, and governmental agency representatives was convened by the National Pediatric and Family HIV Resource Center (NPHRC), sponsored by the Health Resources and Services Administration (HRSA), on July 9 and 10, 1997, to establish and finalize a new set of guidelines for the treatment of HIV-infected infants, children and adolescents. The Working Group was co-chaired by Dr. James Oleske, University of Medicine and Dentistry of New Jersey (UMDNJ)-New Jersey Medical School, Newark, NJ and Dr. Gwendolyn Scott, University of Miami, Miami, FL. The treatment recommendations provided in this document are based on published and unpublished data on HIV infection and treatment in adults and children and, when no definitive data were available, the consensus of the Working Group participants in the treatment of pediatric HIV infection. It is the intent of the Working Group that the guidelines be regarded as flexible and not supplant the clinical judgement of experienced health care providers. It is recognized that these guidelines will need to be modified as new information and experience become available.

Dated: September 24, 1997.

**Claude Earl Fox,**

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### National Institutes of Health

#### Statement of Organization, Functions, and Delegations of Authority

Part N, National Institutes of Health, of the Statement of Organization,

Functions, and Delegations of Authority for the Department of Health and Human Services (40 FR 22859, May 27, 1975, as amended most recently at 62 FR 37587, July 14, 1997, and redesignated from Part HN as Part N at 60 FR 56605, November 9, 1995), is amended as set forth below to reflect the reorganization of the National Library of Medicine as follows: The functional statements of the Division of Extramural Programs (DEP) and the DEP's Office of the Director are updated to reflect current responsibilities.

Section N-B, Organization and Functions, under the heading National Library of Medicine (NL, formerly HNL), is amended as follows: Delete the functional statements in their entirety for the Division of Extramural Programs (NL5, formerly HNL5) and its Office of the Director (NL51, formerly HNL51) and replace them with the following:

Division of Extramural Programs (NL5, formerly HNL5) (1) Administers programs to augment and strengthen the health sciences libraries of the Nation and to improve biomedical communications and information management through grants to, or contracts with, non-Federal and private institutions; (2) analyzes and evaluates extramural programs in relation to program objectives and national needs to achieve balanced and effective support; and (3) provides grants management, grants processing, and administrative management services.

Office of the Director (NL51, formerly HNL51) (1) Plans, directs, and administers the operations of the extramural programs; (2) coordinates collaborative efforts with other NIH components and Federal agencies in the general areas of informatics, information management, networking, health library support, and publications; and (3) provides technical and management assistance to advisory and review committees.

Dated: September 19, 1997.

**Ruth Kirschstein,**

*Acting Director, National Institutes of Health.*

## DEPARTMENT OF HEALTH AND HUMAN SERVICES

### Substance Abuse and Mental Health Services Administration Agency Information Collection Activities: Submission for OMB Review; Comment Request

Periodically, the Substance Abuse and Mental Health Services Administration (SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301)443-0525.

1998 National Household Survey on Drug Abuse —Revision—The National Household Survey on Drug Abuse (NHSDA) is a survey of the civilian, noninstitutionalized population of the United States, age 12 and over. The data are used to determine the prevalence of use of cigarettes, alcohol, and illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, ONDCP, Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources. For 1998, the core NHSDA questionnaire will remain unchanged. Special topic modules related to substance abuse prevention have been added. The total annual burden estimate is 34,662 hours as shown below:

Instrument	No. of respondents	Responses/respondent	Hours/response	Total hour burden
Screening Form .....	82,741	1	0.050	4,137
Questionnaire and Verification Form .....	25,089	1	1.200	30,107
Screening Verification .....	2,482	1	0.067	166
Interview Verification .....	3,763	1	0.067	252
Total .....	.....	.....	.....	34,662

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: Dan Chenok, Human Resources and Housing Branch, Office of Management

and Budget, New Executive Office Building, Room 10235, Washington, D.C. 20503.
